2007 saw a new milestone at the Children’s Research Centre when Professor Ray Stallings was appointed to the Chair of Cancer Genetics - a new programme of research between the Children’s Research Centre and RCSI. Discussions are underway at the present time to develop two further research programmes between the Children’s Research Centre and Trinity College and University College Dublin.

The Children’s Research Centre continues to make significant contribution to paediatric research as outlined in this report. During 2007, there were 101 papers published in peer reviewed international journals. The staff of the Children’s Research Centre and the hospital presented 59 papers at 22 international meetings.

Professor Puri gave the Simpson Smith Memorial Lecturer at The Hospital for Sick Children, Great Ormond Street, London.
